

Today's lesson will be...

With five fantastic attractions, Merlin Schools London has something to offer every school trip, linking to every subject and for all ages.

Whether it's a jaw-dropping Geography adventure, a fascinating insight into media and celebrity culture or storytelling and drama at its finest, the Merlin Schools London's star attractions are guaranteed to inspire, delight and enthuse your pupils' minds.

They are; The Coca-Cola London Eye, Madame Tussauds London, Shrek's Adventure! London, the London Dungeon and SEA LIFE London. Be assured you can find the best attraction for your school or educational group, based on age, if the trip is for reward or study and what subject they are studying.

Madame Tussauds London

Today's lesson will be... a unique insight into celebrity culture and the media!

The world of the Media is a creative and inspiring one, where ideas combine with drama, excitement and humour to keep us entertained and engaged. A fully interactive experience, Madame Tussauds will inspire, enthuse and immerse pupils in celebrity culture and modern media as they walk among the stars.

Suitable for: Key Stage 2-3 pupils.

Subjects: English, PSHE, Citizenship, Media, History, Business Studies.

www.madametussauds.com/education

SEA LIFE London

Today's lesson will be... adaptation, habitats and life-cycles.

Pupils will have the opportunity to explore first-hand how animals have adapted differently to survive in their habitats, use classification keys to help group, identify and name a variety of living things and recognise that environments can change and pose dangers to living things.

Suitable for: Key Stage 1-4 pupils.

Subjects: Science, Geography.

Teacher testimonial

"Last year I took my Year 3 class to visit the Shrek's Adventure! London and the SEA LIFE centre. They had the most amazing experience, exploring the SEA LIFE grounds and being taken on the magical tour in Shrek's Adventure! London. The memories will travel with them for life; we linked lots of our learning back to the trip over the following weeks which was made super easy with all of the great educational resources the Merlin websites have available."

The Coca-Cola London Eye

Today's lesson will be... London's physical and human features.

Inspire your class with a voyage of discovery 135m high above the River Thames. This classroom in the sky not only offers pupils the opportunity to identify with landmarks on London's iconic skyline, it also enables them to locate and categorise them into north, south, east and west compass positions.

Suitable for: Key Stage 2-3 pupils.

Subjects: History, Geography, Art, DT, English and Maths.

Equip your students with social and emotional skills

"It goes without saying that 'education' plays an imperative role in a young person's social and emotional development. As educators you are constantly considering techniques that will encourage students to identify with their emotions, recognise their strengths, develop and nurture relationships with fellow peers, problem solve and have empathy.

"But in booking an educational visit do you ever consider how the experience will also be equipping your students with those social and emotional

skills they require beyond the four classroom walls?

"Take the London Dungeon for example, this is an environment notorious for creating a feeling of apprehension, students will learn to manage the emotion 'fear' as they develop the self-confidence that overcomes it!

"In short, the attractions are amazing immersive learning environments for both reinforcing the academics and encouraging a young person's well-

being. I hope you enjoy discovering them as much as I love witnessing the pupils learn from the education programmes offered at each of them."

Joanne Channon, Education Manager, Merlin Schools London

The London Dungeon

Today's lesson will be... scriptwriting and drama.

The London Dungeon has been delighting audiences for over 40 years and brings together an amazing cast of actors and special effects in an exciting walk through experience that lets you see, hear and smell historic London and its perilous past.

Suitable for: Key Stage 3-4 pupils.

Subjects: English, Drama, History, DT.

Preparing students for the world of tomorrow

At KidZania London, we make learning visible by encouraging students to apply their learning in the classroom with hands-on experiences. We believe every child should have aspirations and develop future life skills for the world of work ahead of them.

Bringing learning to life with our upcoming educational events

Maths Celebration throughout May

We enable students to receive first-hand experience of how Maths is important for a range of careers they had perhaps not considered before. They learn that knowledge of counting and financial management is vital when dealing with money, to discovering how shapes impact design with our Geometry degree. This is a chance for students to reinforce their learning of Key Stage 1-3 Maths in a practical way.

STEM Fair throughout June

After a successful year of our partnership with Year of Engineering, we will be returning our STEM Fair with a chance for students to see how STEM subjects are applied to careers today and tomorrow. Students can explore how creating new energy can fuel cars in our Shell Energy Lab and become a technician in our TV Studio. ●

See all of our educational events including Parliament Week in November at KidZania.co.uk/education
